## OC CHAIRMAN MESSAGE

With strong support from CAD friends, we are able to hold the Annual Symposium at the CKK Auditorium, Hong Kong Science Park this year. We shall have technical presentations on state-of-the-art automation and control systems from companies specialized in the field as well as a luncheon speech by Shanghai Electric on Belt & Road projects. The Symposium will certainly give Hong Kong control and automation engineers some insights on opportunities to engage themselves in Belt & Road projects.

Thanks and best regards,

Richard Yeung
